

OilQuick®

Automatic quick coupler systems

FORKLIFT TRUCKS

OQT

The intelligent quick coupler system for forklift trucks

Change hydraulic attachments in seconds

OilQuick is an automatic quick coupler system for forklift trucks, which allows hydraulic work tools to be connected and disconnected from the drivers cab.

The operator can change between various work tools within a few seconds, such as pallet forks with hydraulic tine adjustment, bale clamps, rotating bale clamps etc. You will therefore always have the right attachment for the job.

OilQuick launched the world's first quick coupler system on the market in 1993, which is still regarded as the most advanced today. The system can be supplied in various models for machines from 1 to 9 tons. The OilQuick system will not only make your forklift truck but also your company more flexible, competitive and cost effective.

Basic data

| Type | OQT 300i | OQT 850i-55 | OQT 850i-90 |
|--------------------------------|----------|-------------|-------------|
| ISO | 2A-3A | 3A-4A | 3A-4A |
| Coupler weight (kg) | 100-110 | 110-130 | 130-150 |
| Max. number of quick couplings | 6 | 6 | 6 |
| 1/2" (max 70 l/min) | 6 | 6 | 6 |
| Electrical coupling (optional) | Yes | Yes | Yes |
| Weight of machine | 1-3 t | 3-3,5 t | 5,5-9 t |

Coupler function

With OilQuick you can change hydraulic attachments directly from the drivers cab in just 10 seconds.

Benefits with OilQuick

Fast and efficient

The OilQuick quick coupler system enables the operator to change over quickly between various mechanical and hydraulic attachments from inside the cab. As a result, he has the right tool for the job in every situation, can work faster and more efficiently.

Safe quick coupler system

OilQuick quick coupler systems are regarded as the safest on the market. Safety features include a hose break valve, a system for constantly readjusting the locking plungers hydraulically, a lock switch with double function, a warning light and alarm.

Improved working conditions

As work tools are changed and coupled automatically, the operator does not

have to get down from the cab. No more handling of couplings covered in oil or leaving the cab with unnecessary exposure to risks. OilQuick boosts morale at work, even in a downpour or a blizzard.

More cost effective

Fast tool change and efficient use of the forklift truck help to increase productivity. Experience has shown that investing in an OilQuick quick coupler pays off when you have to change hydraulic work tools two or three times a working day.

Eco-friendly

All OilQuick quick couplers are fitted with leak-free oil quick couplings, which are eco-friendly.
